---

## Skills & Interests

**Skills:** Python, HTML, CSS, Bootstrap, JavaScript, jQuery, ReactJS, NodeJS, ExpressJS, MongoDB, Java, C/C++, Git

**Interests:** Linux, Open-source, Shell Scripting, Automation, Cloud, Front-end Web Development, Data Analytics

## Work Experience

### **ReelData AI**

**Halifax, Nova Scotia**

*Junior Software Developer*

*Sept 2023 - Dec 2023*

- Collaborated with a dynamic Agile team on ReelAppetite, a key product, demonstrating strong teamwork and interpersonal skills
- Successfully integrated into a large existing codebase, showcasing adaptability and quick learning
- Implemented features using test-driven development and containerization, contributing to the software's robustness
- Experienced the deployment of code to production, highlighting practical application and impact of contributions

### **Sensor Technology LTD (COVE)**

**Dartmouth, Nova Scotia**

*Research Intern*

*May 2023 - Aug 2023*

- Configured Raspberry Pi SBCs with OpenPlotter Marine OS for the purpose of developing and testing the Acoustic Projector Control and Logging System
- Developed Python script for generation and playback of audio files from given wavelength and duration
- Implemented module to connect to private Signal K server and utilize its API to effectively retrieve sensor data
- Created a script for logging data from sensors, consuming it via API calls, and storing it in an SQLite database

## Project Experience

### **Cy | Pass - Secure Password Generator**

**<https://pypi.org/project/cybarpass>**

*Software Developer*

*Apr 2022 - Apr 2023*

- Modularized code by splitting up project into multiple scripts and using proper object-oriented techniques to ensure separation of concerns
- Designed and implemented simple and elegant tkinter GUI and robust CLI for convenience and ease of access
- Packaged and published project to Python Package Index (PyPI), making it easy and convenient for users to install
- Created companion tool [CheckPass](#) to allow users to test the security of generated passphrase

### **Cy | Search - Search Engine Frontend**

**<https://search.cybar.dev>**

*Full-stack Developer*

*Jan 2022 - Apr 2022*

- Designed a search engine frontend that uses NodeJS functions to request and fetch search results from a public API
- Successfully displayed the fetched results in a clear and concise format
- Secured the API key by encrypting it as a repository secret and using code obfuscation techniques
- Implemented progressive web app functionality to allow users to install it as an app

## Education

### **Saint Mary's University**

**Halifax, Nova Scotia**

*Bachelor of Science in Computing Science*

*Expected Graduation Date: Dec 2024*

**Major Courses:** Artificial Intelligence, Data Structures and Algorithms, Software Engineering, Systems Security
